Dear Charles,

Thank you for your recent proposal entitled "A Survey of the Freshwater Mussels in select Mexican Gulf Coast drainages to Assess the Status of the Critically Endangered Texas Hornshell." Your proposal was selected for funding through the Cooperative Ecosystem Studies Unit(s). As such, you will find enclosed an award letter for Agreement number F17AC01008. Please include this number in any correspondence related to this cooperative agreement. For your convenience, I also enclose a copy of your successful proposal package.

I will be your primary FWS point of contact for this cooperative agreement and will be available to assist with any permitting, reporting, and overall coordination, as indicated by the enclosed award letter. I will also assist with invoicing if necessary. I look forward to the continued collaboration and to working with you closely over the next three years to see the project to successful completion.

Thank you for all that you do to promote the conservation of freshwater mussels, for the benefit of the American people.

And thanks again, to all of you, for turning this around so quickly.

With best regards,
Chris
